

Dear CPS Parents,

Math tutoring is going to be available again this year. These free sessions will be held on Tuesdays and Thursdays, beginning September 7th, after school from 3:00 to 3:45. Those wishing to attend must sign up each week in my room sometime during the prior week. This allows me to arrange for one to one instruction. Students may come to one or both sessions as needed. Our 8th grade students have always worked hard to help improve the math skills and grades of those who may need a little extra help to reach their full potential. These sessions have proven to be very helpful to those who attend on a regular basis. Because the 8th grade algebra class is relatively small, I have fewer tutors than in the past. Therefore, I need to limit our services to 5th through 8th grade students only. Please feel free to contact me at school for any further information you may require.

Sincerely,
Mr. Faulconer
