

Dear Parent/Guardian:

The Vision Is Priceless Council is coming to your child's school! We provide vision screening for children ages 3-18. We will be at **Cathedral Parish School** on:

Friday, January 27, 2012 at 8:00 a.m.

- Your child should wear his/her glasses or contacts.
- Tell your child's teacher if you do NOT want your child screened.
- Please practice the sample shapes below with children ages 3-5.
- The screening does not replace a complete eye exam by your doctor.
- If we find a concern, we will notify you.

While your child's results are confidential, they will be shared with your child's school. **Vision Is Priceless** will follow-up on children referred to ensure they get the assistance they may need. Our **Cared Vision** program may be able to help those in financial need.

Did you know that children with vision problems may have few symptoms making it difficult for parents and teachers to recognize issues without proper screening?

Did you know that poor vision may affect behavior or ability to learn? Your school vision screening can make a difference!

The Vision Is Priceless Council is a local, nonprofit agency that provides vision screenings and educational programs for children and adults in the First Coast area. Our services are provided through the generosity of organizations, schools, and individuals like you. If you would like to join your peers in a contribution, please contact us.

Please practice naming these shapes with your children ages 3-5 PRIOR to screening:

Apple or Heart

House

Square or Box

Circle or Ball
